

# IDAHO

## Key Findings

Benefits paid by state and local pension plans support a significant amount of economic activity in the state of Idaho.

Pension benefits received by retirees are spent in the local community. This spending ripples through the economy, as one person's spending becomes another person's income, creating a multiplier effect.

In 2020, expenditures stemming from state and local pensions supported...

14,302 jobs that paid \$679.0 million in wages and salaries

\$2.2 billion in total economic output

\$336.5 million in federal, state, and local tax revenues

... in the state of Idaho.

Each dollar paid out in pension benefits supported \$2.10 in total economic activity in Idaho.

Each dollar "invested" by Idaho taxpayers in these pension plans supported \$8.94 in total economic activity in the state.

## Pensionomics 2023:

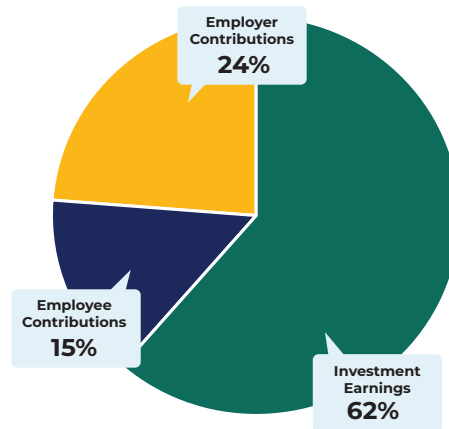

### Measuring the Economic Impact of DB Pension Expenditures

NATIONAL INSTITUTE ON  
Retirement Security  
Reliable Research. Sensible Solutions.

### Overview

Expenditures made by retirees of state and local government provide a steady economic stimulus to Idaho communities and the state economy. In 2020, 50,209 residents of Idaho received a total of \$1.0 billion in pension benefits from state and local pension plans.

The average pension benefit received was \$1,728 per month or \$20,736 per year. These modest benefits provide retired teachers, public safety personnel, and others who served the public during their working careers income to meet basic needs in retirement.

Between 1993 and 2020, 24% of Idaho's pension fund receipts came from employer contributions, 15% from employee contributions, and 62% from investment earnings.\* Earnings on investments and employee contributions—not taxpayer based contributions—have historically made up the bulk of pension fund receipts.

### Impact on Jobs and Incomes

Retiree expenditures stemming from state and local pension plan benefits supported 14,302 jobs in the state. The total income to state residents supported by pension expenditures was \$679.0 million.

To put these employment impacts in perspective, in 2020 Idaho's unemployment rate was 5.5%. The fact that DB pension expenditures supported 14,302 jobs is significant, as it represents 1.6 percentage points in Idaho's labor force.

### Economic Impact

State and local pension funds in Idaho and other states paid a total of \$1.0 billion in benefits to Idaho residents in 2020. Retirees' expenditures from these benefits supported a total of \$2.2 billion in total economic output in the state, and \$1.2 billion in value added in the state.

### Impact on Tax Revenues

State and local pension payments made to Idaho residents supported a total of \$336.5 million in revenue to federal, state, and local governments. Taxes paid by retirees and beneficiaries directly out of pension payments totaled \$100.7 million. Taxes attributable to pension expenditures in the local economy accounted for \$235.8 million in tax revenue.

Federal Tax	\$95.1 million
State/Local Tax	\$241.4 million
Total	\$336.5 million

Occupation Category	Wage and Salary Employment	Wage and Salary Income	Supplements to Wages and Salaries	Employee Compensation
Food Preparation and Serving Related Occupations	1,678	\$30,692,672	\$5,496,631	\$36,189,304
Sales and Related Occupations	1,491	\$52,152,217	\$9,912,122	\$62,064,339
Office and Administrative Support Occupations	1,366	\$54,422,103	\$10,973,246	\$65,395,350
Healthcare Practitioners and Technical Occupations	1,125	\$92,836,744	\$19,976,802	\$112,813,546
Transportation and Material Moving Occupations	930	\$35,029,733	\$7,298,754	\$42,328,487
